

Working RESPONSIBLY

Community and charity

Our manufacturing and recycling centres, our warehouses and our branches, can have a significant impact on, and benefit from, the communities in which we operate. It is important that we provide support to communities local to our sites so we can enhance the quality of life in these communities.

Children in hospital

Our staff donated Christmas presents to children spending the festive period in 2 local hospitals.

National Health Service

S&S Plastics recommenced operations in April (while the rest of the Eurocell Group still remained closed) to specifically produce components urgently needed by the NHS for:

- Critical power supply and distribution – used in the NHS Nightingale hospitals; and
- Oxygenators – used in some circumstances for the treatment of COVID-19 patients.

Physical and mental health

We sponsored the team strips at a local basketball club, run by a long-serving Eurocell colleague, providing opportunities for both adults and children to improve both their physical and mental health.

Childhood literacy

We donated to Stoneydelf Primary School, Tamworth to purchase books as part of the restoration of their school library, to help the children improve literacy and support staff and parents in a challenging environment.

Local community

We donated external cladding to Easthouses Lily Miners Welfare Football Club to help them renovate their facilities which form an important part of the local community.

Living with cancer

We donated to Macmillan Nurses to support the invaluable work they do with people living with cancer, especially where treatment has not been able to progress due to the impact of COVID-19.
